LEO Club of Bhanubhakta

Coordinated community service initiatives and youth leadership programs, managing operations and organizing impactful social projects.

FEATURED PROJECTS

MANO-LOG | *AI-Powered Mental Wellness App*

React Native • GPT API • Mobile Development

Developed an intelligent journaling application that revolutionizes mental health tracking through AI-powered insights. Features mood logging, trend visualization, and an empathetic wellness chatbot for personalized emotional support.

SKILL BAZAAR | *Freelance Marketplace Platform*

Node.js • Express.js • MongoDB • RESTful API

Built a comprehensive freelancing platform connecting professionals with clients. Architected features including real-time notifications, project bidding, public commenting system, and seamless collaboration tools for efficient project management.

LEKHA | *Personal Finance Management System*

C++ • Data Visualization • User-Centric Design

Created an intuitive expense tracking application with intelligent budget setting, transaction categorization, debt management, and comprehensive visual analytics for informed financial decision-making.
